

AGRI AFRICA
7-9 NOV | ABUJA, NIGERIA

**INTEGRATING NIGERIA & AFRICA'S
AGRICULTURAL VALUE CHAIN**

7-9 November, 2023
International Conference Centre, Abuja

WHAT IS AGRI AFRICA?

Agri Africa aims to be a platform that will bring together stakeholders from the private and public sector to increase the efficiency of agribusiness value chain in Nigeria and Africa, providing a thriving environment for business, connections and driving the evolution of agribusiness in Nigeria.

The 3-day event will drive inclusive real economic growth in Nigeria and Africa by creating the right opportunity to discuss current issues which will enable a strong agribusiness economy; capable of meeting domestic food demand, building manufacturing base, enhancing productivity, overcoming storage challenges as well as ushering investment into the agribusiness.

EVENT OBJECTIVES

- » Facilitate the expansion of Intra-African trade and investment
- » Discover the latest products and solutions in the market
- » Meet key global innovators, local industry players, and investors in Crop Farming, Animal Farming and Health, Fresh Produce and Agriculture technology providers
- » Tailor conferences curated to deal with the bottlenecks in the industry and provide sustainable solutions from industry experts
- » Create a platform to efficiently encourage quality local produce fit for global market

Why Exhibit?

- » Showcase your products and services
- » Reinforce your commitment to the marketplace and position your business to take on future procurement opportunities
- » Access and network with key influencers & buyers
- » Strengthen and expand the promotion of your brand to the market
- » Present your expertise in the conference and programme to government agencies and end users
